Virtual Visit

Instructions

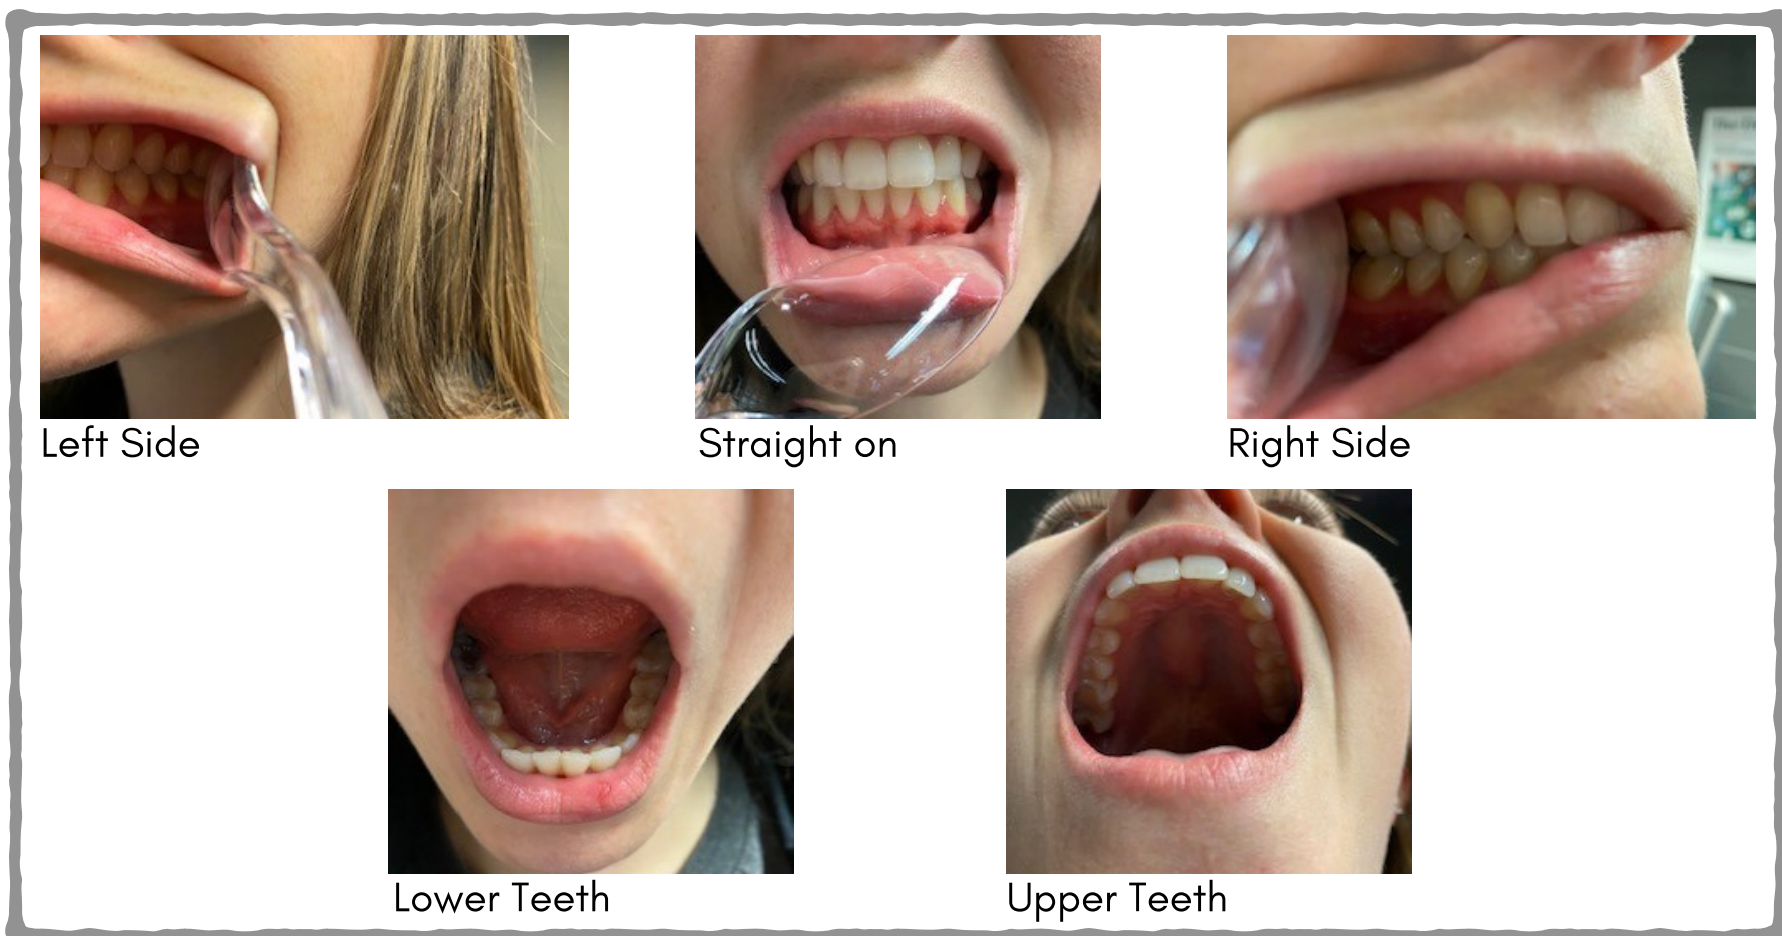

Virtual visits only require a two simple steps. The first is to take five [5] pictures that Dr. Corsa can use to assess progress or understand what is happening.

Below are step-by-step instructions as to how to capture the correct images and where to send them. Once sent, Dr. Corsa, or a team member will be in contact with you within 1 business day.

Should you have additional questions, please be sure to include them with your pictures!

The easiest way to capture these photos is using your cell phone and a pair of plastic spoons to help get the cheeks and lips out of the way. Below are examples of what the photos should look like.
